

**THE ONLY LABEL IS BLACK.™**

# EVM 12L

Handmade in the USA

*Zakk Wylde*

Zakk Wylde demands killer tone from his guitar speakers.

**300 WATTS OF IT. EACH.**

That's why the only speaker Zakk uses is the EVM12L Black Label.

**BLEED BLACK LABEL.**

# The original EVM12L 12"

loudspeaker was introduced in 1983. Known for its huge tone, gorgeous low-end and incredible stability at extreme volumes, it quickly achieved legendary status. Top guitarists and bassists loved it not only for its sound, but also for its reliability. Tour after tour, the EVM12L held up to the demands of the most punishing players.

Enter: the EVM-12L BLACK LABEL, the OFFICIAL guitar loudspeaker of Zakk Wylde and Black Label Society. Take the EVM-12L, add Zakk's personal specs (improved power handling, improved magnet design, better venting, and the Black Label colors), and now you have the greatest f\*\*king guitar loudspeaker in the world. Wanna argue with Zakk on that? I didn't think so. Remember: The only label is BLACK™.

Handmade by hardworking, real American folks in Morrilton, Arkansas, the EVM-12L Black Label is the product of EV blood and sweat.

We hope that you will represent the EV and Black Label Society colors with honor. We know that you will sound louder, better, and harder with the EVM-12L Black Label.

## BLEED BLACK LABEL

*"I was overseas in Europe and my Celestions got blown out and I needed replacements. Rather than go back to the Celestions we swapped them with the EVM12Ls and now - I never went back to anything else!"*

*Zakk Wylde*
