

MotionSet™ LED

FEATURES

- Create a professional set up at any mobile event with this set that combines the MotionDrape™ LED MotionFaçade™ LED
- Simplify setup, operation and synchronization using a single controller for both products
- Wow your audience with 30 built-in patterns including a multicolor rain effect and simulated equalizer pattern
- Trigger effects using built-in, sound activation mode
- Easily select and activate your favorite programs with or without DMX 512 console
- Match the color scheme at any event with full RGB color-mixing capability
- Achieve full control over output with master dimmer capability
- Create customized looks using high-output, tri-color SMD LEDs and 8 channels of DMX control Mounts to truss and various stand applications using built-in grommets
- Manufactured from certified fire retardant material (NFPA)
- Convenient storage and transport using the included carry bag
- Replace conventional front boards with MotionFaçade™ LED by attaching it directly to your coffin case or rack with sewn in Velcro™ fasteners
