The Summer Cr Series promotion from MXL combines the award-winning MXL Cr89 mic with the support of either the Cr30 large-diaphragm condenser mic, or a pair of Cr21 pencil condenser mics. This buy-one-get-one free option will immediately increase the sound capabilities for any engineer, producer, and/or recording artist, providing a budget-friendly mic solution that can record vocals or any instrument with outstanding high quality. The Cr series features custom black chrome and black matte finishes on all the mics for a sleek and unique look, and each mic contains ultra-low-noise circuitry to minimize any self-noise while delivering full, rich sound. Used together these Cr series mics will fully round out the sound arsenal for any recording studio this summer!
