

DM10 Studio Kit

PROFESSIONAL SIX-PIECE ELECTRONIC DRUM SET

MORE DRUMS, MORE SOUNDS, MORE VALUE. The DM10 Studio Kit combines the natural feel of Alesis RealHead drum pads and low-noise DMPad Cymbals with the uncompressed sound samples in the groundbreaking DM10 drum module. The DM10 module delivers impressive sonic realism, 1,000+ built-in sounds, and the ability to load new sound sets via USB. You will immediately notice the DM10 module's outstanding sound quality because it contains real drum, cymbal and percussion sounds built from uncompressed samples of classic studio drums and prized cymbals.

The DM10 Studio Kit gives you more – more drums, more cymbals, more sounds, more flexibility, and more value – to power your creativity.

FEATURES

- › DM10 module with 12 trigger inputs and over 1,000 premium, uncompressed sounds
- › RealHead 10" snare and four 8" toms – dual-zone drum pads with real mylar heads
- › DMPad Cymbals: hi-hat, two crashes, and triple-zone ride
- › Low-profile black, curved aluminum StealthRack
- › Sound-set loading and use with software drum modules, both via USB
