

How Do You Get a 100 lb. Cabinet 7-Foot Off The Floor . . . And Back Down Again? *No Sweat!*

Left the drill at home? No worries!

As every musician knows, set-up and tear down can be a bear! Especially if you are loading a 100 lb. speaker cabinet. Now, with the new Power Crank-Up Speaker Stand by On-Stage Stands, only one person is needed for the job by simply cranking-up with the crank-up handle or powering-up with an electric or cordless drill.

[smart roadies are cranking-up!]

*Drill not included.

Other Features:

- Adjustable Height 47"-80"
- All-Aluminum Construction
- 100lbs. Weight Capacity
- Base Spread 32"-48"
- Over Sized Tightening Knobs
- Removable End Caps
- Black Powder Coat Finish
- Non-Slip Rubber Feet
